**A VTCA Member
Lunchbox Seminar**

Power Transmission Belting: Best Practices for Installation, Maintenance and Troubleshooting

**Charlottesville Division of
Mineral Mining/DMME
Charlottesville, Virginia**

**October 5, 2010
10:00 a.m. - 12:30 p.m.
(Lunch provided)**

VTCA
Virginia Transportation Construction Alliance

**Power Transmission Belting:
Best Practices for Installation,
Maintenance and Troubleshooting**

This two-hour session is dedicated to developing an understanding of basic belt drive principals. Completion of the seminar will assist you in identifying the proper belt for the application, how to select the proper belt drive system, when to use single vs. banded v-belts as well as when to replace the belts and pulleys. You will also learn the effects of improper tension and how to set the proper belt tension using a tension tester.

This session is being organized and conducted under the direction of Jeff Place with Applied Industrial Technologies.

Presenters:

Jeff Place is an Industry Specialist with Applied Industrial Technologies and is based in Winchester, VA. He has been in the Power Transmission field for 25 years, having held various sales and marketing roles. Jeff graduated from Shenandoah University with a BA degree in Business Administration.

Rich Silva is a Technical Manager with Goodyear Engineered Products and is based in Richmond, VA. Rich has been with Goodyear since 1971 having held a variety of sales and marketing roles over the years. He has conducted Distributor Training Schools; Installation and Maintenance Seminars for V-Belts and Conveyor Belting; as well as Power Transmission Energy Efficiency Seminars. Attendees have included Management, Engineering, Safety, Maintenance, Sales and Marketing personnel.

VTCA LUNCHBOX SEMINAR

Power Transmission Belting: Best Practices for Installation, Maintenance and Troubleshooting
Division of Mineral Mining/DMME, 900 Natural Resources Drive, Suite 400, Charlottesville, VA 22903
